### **Addition of Entities and Revision to Existing Entities on the Entity List; Removal of Existing Entity from the Military End User List**

**AGENCY:** Bureau of Industry and Security, Department of Commerce.

**ACTION:** Final rule.

**SUMMARY:** In this rule, the Bureau of Industry and Security (BIS) amends the Export Administration Regulations (EAR) by adding twenty-eight entities to the Entity List under the destinations of the People's Republic of China (China), Finland, Germany, Oman, Pakistan, Russia and the United Arab Emirates. These entities have been determined by the U.S. Government to be acting contrary to the national security or foreign policy interests of the United States. This rule also revises two existing entries on the Entity List under the destinations of China and Pakistan and removes an entity from the Military-End User List under the destination of China.

**DATES:** This rule is effective [INSERT DATE OF PUBLICATION IN THE FEDERAL REGISTER].

**FOR FURTHER INFORMATION CONTACT:** Chair, End-User Review Committee, Office of the Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, Phone: (202) 482-5991, Email: [ERC@bis.doc.gov](mailto:ERC@bis.doc.gov).

### **SUPPLEMENTARY INFORMATION:**

#### **Background**

The Entity List (supplement no. 4 to part 744 of the EAR (15 CFR parts 730-774)) identifies entities for which there is reasonable cause to believe, based on specific and articulable facts, that the entities have been involved, are involved, or pose a significant risk of being or becoming involved in activities contrary to the national security or foreign policy interests of the United States, pursuant to § 744.11(b). The EAR impose additional license requirements on, and limit the availability of, most license exceptions for exports, reexports, and transfers (in-country) when a listed entity is a party to the transaction. The license review policy for each listed entity is identified in the “License Review Policy” column on the Entity List, and the impact on the availability of license exceptions is described in the relevant *Federal Register* document that added the entity to the Entity List. The Bureau of Industry and Security (BIS) places entities on the Entity List pursuant to parts 744 (Control Policy: End-User and End-Use Based) and 746 (Embargoes and Other Special Controls) of the EAR.

The End-User Review Committee (ERC), composed of representatives of the Departments of Commerce (Chair), State, Defense, Energy and, where appropriate, the Treasury, makes all decisions regarding additions to, removals from, or other modifications to the Entity List. The ERC makes all decisions to add an entry to the Entity List by majority vote and makes all decisions to remove or modify an entry by unanimous vote.

## **Entity List Decisions**

### *Additions to the Entity List*

Pursuant to § 744.11 of the EAR, the ERC determined to add the following entities to the entity list: Asia Pacific Links Ltd. under the destination of China; Evolog Oy, Luminor Oy, and Siberica Oy under the destination of Finland; ICW-Industrial Components Weirich under the destination of Germany; and Device Consulting, Grant Instrument, SMT-iLogic, and Streloy under the destination of Russia. These entities have been implicated in a conspiracy to violate U.S. export controls, including a scheme to supply the Special Technology Center, an entity on the BIS Entity List, with components to make unmanned aerial vehicles (UAVs) for Russia's

Main Intelligence Directorate of the General Staff (GRU). This activity is contrary to U.S. national security and foreign policy interests under § 744.11 of the EAR.

The ERC determined to add Speed Business Trading (HK) Ltd. and Sunrising Logistics (HK) Ltd. to the Entity List under the destination of China, on the basis of actions and activities that are contrary to the national security and foreign policy interests of the United States. Specifically, these companies have procured and/or attempted to procure U.S.-origin items that would ultimately support Iran's weapons of mass destruction and UAV programs.

The ERC determined to add Nanjing Institute of Astronomical Optics and Technology to the Entity List. This entity is added to the Entity List under the destination of China for procuring U.S.-origin items in likely furtherance of Chinese military research, and contrary to the national security and foreign policy interests of the United States, under § 744.11 of the EAR.

The ERC determined to add International Smart Digital Interface Company (ISDIC) and associated individual Moaz Ahmed Mohammed al-Haifi to the Entity List under the destination of Oman for actions contrary to the national security and foreign policy interests of the United States under § 744.11 of the EAR. Specifically, these entities have provided support to Yemen-based Houthi forces.

For these fourteen entities added to the Entity List, there is a license requirement for all items subject to the EAR. License applications will be reviewed pursuant under a presumption of denial.

The ERC determined to add the following entities to the Entity List for contributions to Pakistan's unsafeguarded nuclear activities: New Era Enterprises FZE under the destination of the United Arab Emirates; Well Fair International (Hong Kong) Ltd. under the destination of China; and AHD International; Genesis Technical Consultancy Services; Indus Tooling Solution; Longford Engineering (Pvt) Ltd; and Polymaster Engineering under the destination of Pakistan. These seven entities require a license for all items subject to the EAR. License applications will be reviewed pursuant to § 744.2(d) of the EAR.

The ERC determined to add VSMPO-AVISMA Corporation PJSC to the Entity List under the destination of Russia for representing a critical risk of diversion of U.S defense technologies. VSMPO-AVISMA is directly involved in producing and manufacturing titanium and metal products for the Russian military and security services. The ERC has determined that this entity qualifies as a military end-user as defined in § 744.21(a)(2) of the EAR and is therefore receiving a footnote 3 designation because it is a Russian or Belarusian ‘military end user.’ A footnote 3 designation subjects this entity to the Russia/Belarus-Military End User Foreign Direct Product (FDP) rule, detailed in § 734.9(g). This entity is added with a license requirement for all items subject to the EAR, and a license review policy of denial.

The ERC determined to add Guilin Alpha Rubber & Plastics Technology Company Limited, Hangzhou Fuyang Koto Machinery Company Limited, Raven International Trade Limited, S&C Trade PTY Company Limited, Shenzhen Caspro Technology Company Limited (Shenzhen Caspro), and an employee of Shenzhen Caspro, Yun Xia Yuan to the Entity List, all under the destination of China, for working as a network to procure aerospace components, including dual-use components for unmanned aerial vehicle applications, for the Iran Aircraft Manufacturing Company (HESA). The aerospace components are used to develop and produce Shahed-series UAVs, which have been used by Iran to attack oil tankers in the Middle East and by Russia in Ukraine. These activities are contrary to the national security and foreign policy interests of the United States under § 744.11. The ERC has determined that these six entities qualify as military end-users as defined in § 744.21(a)(2) of the EAR and are therefore receiving footnote 3 designations because they are Russian or Belarusian ‘military end users.’ A footnote 3 designation subjects these entities to the Russia/Belarus-Military End User FDP rule, detailed in § 734.9(g). These entities are added with a license requirement for all items subject to the EAR, and a license review policy of denial, apart from food and medicine designated as EAR99, which will be reviewed on a case-by-case basis.

For the reasons described above, this final rule adds the following 28 entities to the Entity List and includes, where appropriate, aliases:

## **ERC MEU List Decisions**

### *Removals From the MEU List*

Pursuant to the procedures detailed in supplement no. 5 to part 744 of the EAR, this final rule removes Zhejiang Perfect New Material Co., Ltd, an entity located in China, from the

McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA) (50 U.S.C. 4801-4852). ECRA provides the legal basis for BIS's principal authorities and serves as the authority under which BIS issues this rule.
